I think social media is useful to make friends. I have two reasons.

First, I enjoy talking about the same hobby with my friends on social media. The other day, I talked about Korean idols and K-pop with my classmates on social media. It was fun.

Second, I can say what I want to say on social media and I can connect with people easily. I talked with many people I didn't know on social media. After that, I became able to talk with them easily when I met them in person. ※ in person 直接会って

That's why I think I can make friends when I use social media.

塾長の感想

- ◆ 2つの理由を言うのに、自分の経験談を効果的に使っていますね！とても説得力があります。
- ◆ “became able to ~” (~できるようになった)など、新しく覚えた表現を、熱心にノートに書きこんでいたのが印象的でした。

That's right.
