

# Guam Exchange Program Report

Jan / 21 / 2025 ~ Jan / 26 / 2025

## About Guam 🇬🇺

There were spreading a very beautiful nature. People who live in Guam were friendly and kind.

I went shopping. I was trouble figuring out how to use the coins. Then, people around me helped me. I was very happy.

## Saint Paul Christian School 🏫

The students at this school were very unique. There were all kinds of people : American, Korean, Japanese, etc., and everyone was friendly. It allowed me to get used to it right away. I enjoyed the lessons that I couldn't understand at first, but gradually I was able to understand them.

## Host Family 🏠

My host family loved sports. I love sports too, so we became friends easily. We ate out for a meal, went out after school, and had a very outdoor lifestyle. An outdoorsy my host family, so we got to visit a lot of places. The most enjoyable part was watching the basketball game. It was a lot of fun!!

## What did you learn through this experience?

I'm not good at English and I'm not sure if I can communicate well. However, I was able to communicate well when I was conscious of not thinking too much, but just saying the words that came to my mind and listening carefully to what the other person was saying.

I also learned about different cultures and the joy of being exposed to different cultures.
