

# Guam Exchange Program Report

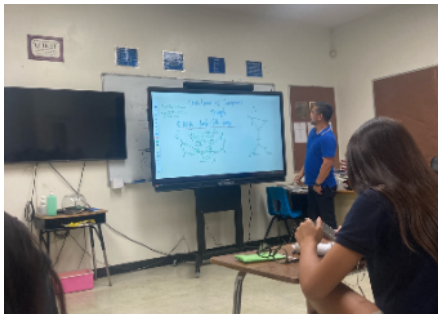

Jan / 21 / 2025 ~ Jan / 26 / 2025

## About Guam 🇬🇺

The scenery of Guam was wonderful. The beauty of the ocean far exceeded that of Shichirigahama, and I was in awe of it. Also, the people of Guam are very kind, and I was touched by their kindness a lot during the week.

## Saint Paul Christian School 🏫

That school was more liberal than we thought. You can use your phone during class. We were very surprised by this. Also, the content of the classes was very difficult for us and we could not understand it at all at first. However, my buddy kindly taught us and we were able to understand.

## Host Family 🏠

I met my homestay . I was very anxious. However, my host family was very kind. They accepted me like a real family. They took me to shopping malls and photo spots after school and on vacations.

## What did you learn through this experience?

In Guam, I was able to cultivate my English skills. Since I had never met anyone there before, I went to talk to them myself and talked a lot with the people who talked to me. I was happy that I was able to convey what I wanted in my English.
