

My favorite / important things

my guitar

Hello every one.

Today, let me talk about my important thing, my guitar.

I am a member of the band, Light Music Club.

I bought this for my club activity before entering high school.

The color is red, because I like red the most.

I practice the guitar for an hour every day

My goal is to practice a lot, and to play difficult chords of music.

If you have time, please listen to my club's songs and try to play the guitar too.

my gloves

Hello every one.

Today, let me talk about my favorite thing, my gloves.

My parents bought this pair of gloves when I was 12 years old.

I have been using it for three years now.

This is an all-round type, so it's a great gloves for me, and fits me in whatever position. I practiced this gloves for three years. Do you think this is a good color? My mother chose this color for me.

It was very easy to find red color of gloves in the club, because I am the only one who have this color.

This glove has a lot of memories. The day when I polished this glove, I was able to catch the ball better. And playing baseball with this glove is a lot of fun. Everyone, please buy your own gloves and play baseball too, but I am sure that it will be fun if you are interested in the sports, baseball.

If you like baseball, just let me know and let's play baseball together.

Thank you for listening.
